

Helen Edwards Summer Internship in physics of accelerators and related technology

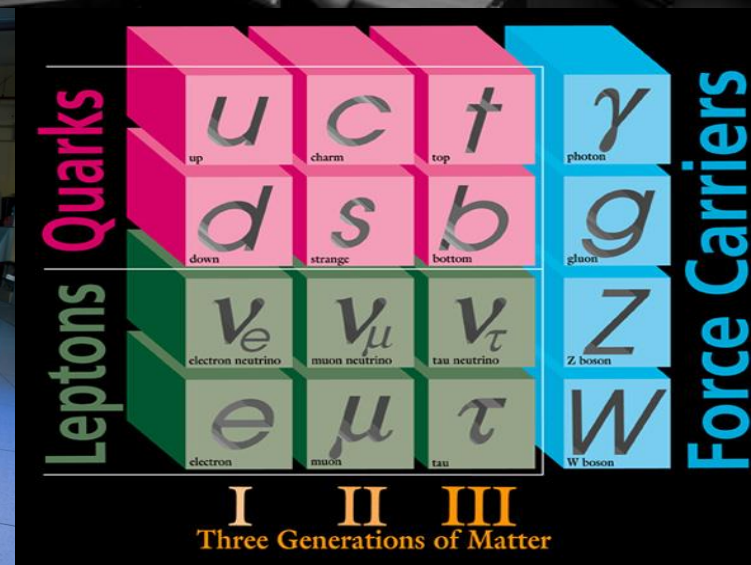

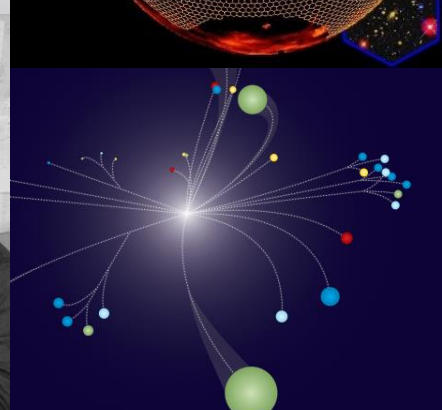

Long-Baseline Neutrino Facility (LBNF)

Proton Improvement Plan-II (PIP-II)

The Dark Energy Survey

Fermi National Accelerator Laboratory (located near Chicago, IL, USA) opens registration for the Helen Edwards Summer Internship in physics of accelerators and related technology. This internship program has been developed to familiarize selected university students with opportunities at the frontier of scientific research in physics and technology of particle accelerators. The program is open to students of universities in Europe, majoring in Physics or Engineering. Deadline for applications is January, 8th, 2018.
